### CONDITION OF THE MARKETS

Grain a Little More Active and Somewhat Weaker on the Chicago Board.

Early Cables Were Strong, but Good Weather and Indiana Threshing Reports Broke the Market-Fluctuations in Pork.

### MONEY STOCKS AND BONDS.

made at 3, closing offered at 2.

A Vigorous Market with a General Advance -Sugar Trust Slumps Downward. NEW YORK, Aug. 9.-Money on call was easy at 3@6 per cent., the last loan being

Prime mercantile paper, 434@612 per cent. Sterling exchange quiet and weaker at \$4.8412 for sixty-day bills, and \$4.8714 for

demand. The total sales of stocks to-day were 218,490 shares, including the following: Atchison, 16,765; Delaware, Lackawana & Western, 6,700; Lake Shore, 5,515; Missouri Pacific, 15,210; Northwestern, 3,528; Northern Pacific, 4,010; Northern Pacific preferred, 20,387; Oregon Transcontinental, 9,685; Reading, 18,900; St. Paul, 12,730; Texas Pacific, 4,335; Union Pacific, 11,360.

There was more vim to the stock speculation to-day, and the buying was of a more general nature than during the past few days, which imparted a firmer and more pronounced tone to the dealings. There was very little news of importance to affect values, but the reports from the crops in Illinois, the action of the Northwestern in restoring coal rates between Milwaukee and St. Paul and the additional favorable returns of earnings were factors in the market to-day. in the Vanderbilts, Gould stocks and the Villards, the first of which did much to give a confident tone to pool buying, and the pools were all active in their favorites, resulting in a general, though moderate, appreciation. London had gotten over the influence of the advance in the Bank of England rate, and this morning was fully up to our figures of last evening, while our market opened up from 18 to 38 per cent. There was a better distribution of the business done, though the special favorites, such as the Chesapeake & Ohio, the C., C., C. & St. L., and Lake Erie & Western maintained their ascendency in the dealings and furnished an element of strength to the rest of the market. London was again a buyer in the early trading, but speculation received but little support from the local operators until well into the morning, when Missouri Pacific and Northern Pacific preferred became specially active and strong, and were followed later by Union Pacific. The Gould properties were features of the afternoon's trading, and the Wabash especially, under the influence of the very flattering report of earnings for last month, made a handsome advance. Oregon Transcontinental also was remarkable for a spurt, which carried it up over 1 per cent., and among the other low-priced shares, Southern Pacific, Green Bay and San Francisco preferred made spe-zially large gains on small trading. Toward movement, which was supposed to emanate from Chicago, was begun in Sugar Trust, and the pressure was lifted only with the close of business, by which time its price had been depressed 334 per cent. This novement affected to some extent the rest of the market, and concessions were made rom the best prices over the entire list. The close, however, was dull but firm at fractional advances over the opening figures. The only important change among the active stocks was the loss of 334 per cent.

The railroad bond market was quiet, and the Chesapeake & Ohio fives and Richmond & Alleghany firsts maintained their lead in the dealings, the first named furnishing \$286,000 out of a total of \$1,308,000. The market was firm, but there was no decided tone to the dealings. St. Paul gold 'sevens rose 2, to 125; Chicago, St. Louis & Pittsburg firsts, 3, to 95, and Wabash general receipts, 1, to 48. Northwestern sinking funds lost 2, at 120.

Government bonds were dull and steady.

	Were dull and steady.

Range in Prices of Leading Articles.

The Ups and Downs of the Market, with the

CHICAGO, Aug. 9.-There was a continuation of the late dullness and weakness in wheat, to-day's market being just as narrow and featureless as noticed in any of the preceding days of the week. Opening figures were about the same as yesterday's closing, and temporary firmness was derived from early cables, prices working up 4c or so. In fact, the weakness developed was attributed to the anticipation of a favorable report by the Washington Agricultural Bureau, and was intensified by some selling orders from New York. It was claimed, too, that threshing returns in Indiana were showing up big, and there was talk about St. Louis shipments letting up by the 20th prox., which would quickly tell on elevator stocks there. The market rallied feebly from the midday break. From bottom prices a fractional gain was made, but general liquidation by local "longs," and the buying limited in the main to one leading operator, gave to the market a heavy tone up to the very close, and the latest bids were close around the lowest of the day. Based on yesterday's close, there was a net loss of 1820 14c. Corn was quiet, with the feeling rather easier. Trading was light and confined principally to the local crowd, and fluctuations were limited to 18214c.

a decline of 4c in the cash market. The market opened a shade below yesterday's close, was easy, declined 18@14c, became close, was easy, declined \(^{1}\star\*\alpha\) \(^{1}\text{4c}\), became inactive, and closed \(^{1}\star\*\alpha\) \(^{1}\text{4c}\) lower than yesterday. Oats were weaker and \(^{1}\star\*\alpha\) \(^{1}\text{4c}\) lower. Trading was moderate and chiefly in May. Near futures were quietest and weakest, owing to good offerings and lack of demand, especially in August, in which the "shorts" have covered freely, leaving the market without support. Rather more business was transacted in mess pork. Opening sales were at 5c decline, which was followed by a further reduction of 5c. Later the feeling was stronger and prices rallied \(^{10}\alpha\) \(^{12}\) \(^{12}\) and closed steady. A fair trade was reported in the lard market. Later the demand improved slightly and prices rallied \(^{07}\) \(^{12}\alpha\). 10c, closing steady. Trading was moderate in short ribs. Fluctuations were confined within a narrow uations were confined within a narrow range. Early prices ruled .0212@.05c lower, but rallied again later in the day and closed steady. The leading futures ranged as fol-

#### DUN & CO.'S WEEKLY REVIEW. Marked Improvement Noted in Almost All

Co.'s weekly review of trade says: The

Lines of Trade. NEW YORK, Aug. 9.-R. G. Dun &

dull and weaker; Western, 6@7c.

changes in the business world during the week, though but slight, have all been in the right direction. There is a little better movement of products, some improvement in crop prospects, particularly in cotton, with more confidence and strength in the stock market and less chance of disturbing withdrawals of specie for Europe. In manufactures all changes are in the direction of improvement, and the reports interior points indicate a of trade exceeding last year's, and on the whole steadily increasing. Of all cities reporting this week, scarcely one notes dullness in trade. and though business is "rather inactive" at Kansas City, a better demand for money is seen. At Detroit, while general trade is fair, considerable building is in progress and collections, slow in some lines, are good in others. Omaha finds trade good, crops never better, and collections fair. Milwankee notes excellent crop prospects, except for corn, and business good. Chicago re-joices in assurance of abundant crops, and dealings in provisions exceed those of the same week last year by 50 per cent., in wool by 25 per cent., and in live stock and hides by 10 per cent. At Philadelphia there is seen general improvement. At Galveston very favorable crop reports give strength, and at Boston there is a significant harden-

ing of the money market. The coke strike has ended and removes apprehension of the closing of many iron-works in the Pittsburg district. On pigiron the price has advanced about 50 cents. and manufactured iron is strong. The glass trade is good. The copper producers have agreed to continue present prices. Tin is weaker abroad, but the American demand is larger than ever, and lead is dull at 3.85 cents. In wool and woolens there is not much change. Sales have been light and spinners still buy sparingly. The mar-ket for cotton goods is more satisfactory, but the market for raw cotton does not yield, though the new crop is now ex-pected to be large, and from two to three weeks early. In boots and shoes the severity of competition makes profits very narrow. Rubber is weak and declining. With steady improvement in the reports from the Northwest, wheat has declined about 3s cent on sales of only 8,000,000 bushels here, and corn 12 cent on sales of 5,000,000 bushels. Oats are nearly a cent lower, and hogs 10 cents per 100 pounds. In oil there is an advance of 12 cent, and in coffee, prices have been lifted 34 of a cent. Sugar is strictly nominal, with 612 cents quoted as above any bid at a present obtainable, and the narrative that an international syndicate is getting ready to buy Cuba from Spain, and to control all sources The easier feeling was attributed to fine of supply of raw sugar, may be mentioned weather, large receipts, weaker cables and as indicating the difficulties which the

trust and the Magdeburg syndicate begin to realize. The stock market has been strong and advancing. A rational explanation is that railroads are assured of a large fall business, and will be powerfully pressed to adjust differences, if only for a time. The average price of the more active stocks is about \$1.60 per share higher than a week ago, and foreign realizing no longer appears. The tendency of capital toward industrial combinations may naturally have peen checked of late, and this would lessen the disposition to realize on good securities. During the week the Treasury has taken in \$1,000,000 more than it has paid out, but the merchandise exports from New York for the week were nearly 30 per cent. above last year's, with an increase of about 20 per cent. above last year.

The business failures number 201, as combeen strong and advancing.

The business failures number 201, as compared with a total of 210 last week, and 216 the week previous. For the corresponding week of last year the figures were 233.

### TRADE IN GENERAL.

Sheep-Receipts, 5,400; shipments, 4,450. The market was steady. Lambs less active and easier Hogs firm. Common and light, \$3.75@4.65; packing and butchers', \$4.40@4.55. Receipts, 910; shipments, 310.

### INDIANAPOLIS MARKETS.

A Steady Tone Marks Dealings in All Departments, with Only a Moderate Trade.

INDIANAPOLIS, Aug. 9. This has been another off day in local trade circles, but the aggregate for the week will compare very favorably with that of any week of the mid-summer season. Though not rushed by any means by either personal selection or mail orders, merchants were kept reasonably busy, and traveling men are expected to bring in liberal orders to-morrow. All lines of goods maintain their firm tone, and no concessions are made, or, if any are granted, it is only to the extent of the slightest shading of prices. The trade in produce is about the same as in the middle of the week. Good butter is still in request, and poultry is abundant and rather weak at quotations. Fruits and vegetable are unchanged in the main. Potatoes are abundant. Tomatoes are scarcer, and country gardeners have pushed up the price to figures which will unquestionably induce shipments from abroad on Monday. At the prices prevailing to-day, shipments from Chicago would pay in this market. Apples are abundant and weak at quotations. Peaches are still scarce and high.

The receipts of wheat continue quite liberal, being 65 cars to-day, but of all receipts 46 graded rejected or below. The continued bad grading leaves the market in an unsatisfactory state, and millers find it difficult to supply their necessities. Off grades are only salable on buyers' terms. Corn continues steady, with a good local consumptive demand for all mixed of high grade. There is only a light demand for oats. We quote:

Wheat—New No. 2 red, 75½c; No. 3 red, 70

Her Idea of "Old Masters." Washington Post.

When Henry Savage Landor, the young English artist, was in Washington he told us of a lady in Boston who asked him to come and look at a painting by one of the old masters, hanging on her wall.

"It looks like one of Millais's," said Mr.

Landor. "Yes, it is," she replied. "But, my dear madam," said he, "you do not call Millais one of the old masters?"
"Why, isn't he? I supposed he was quite an elderly gentleman."

Exposure to a chill during the drive, or to

night air, or unexpected change of temperature, is a most frequent cause of sudden stomach ills. which all should guard against by a timely cup of ginger tea made from SANFORD'S GINGER, a most popular and delicious preventive of sum-

This original combination of imported ginger, choice aromatics, and medicinal French brandy, instantly relieves cramps and pains, speedily checks all forms of summer ills, prevents indi-gestion, destroys disease germs in water drunk, restores the circulation and digestion when sus-pended by a chill,—a frequent cause of stomach troubles,—breaks up colds and fevers, promotes sleep, allays nervousness, and wards off ma-

Beware of cheap, worthless, and often danger-ous gingers, which are urged as substitutes. Ask for Sanford's Ginger

With Owl Trade-Mark on the Wrapper.
